

Sprint 4 Plan

Team: AI for Oceans

Release: 1.0

Revision: 17 November 2021

High Level Goal

- Complete the remaining pages of the website so it can be used to help ocean scientists get started with machine learning
 - Polish completed pages, finish dataset page, if clients have content for learn and demonstration create/start them
- Have a minimal backend to store dataset information

User stories

- As a ML programmer/user I want to see all the links to the database to see my options
- As an ocean scientist I want a demonstration to show my colleagues the power of machine learning.
- As an ocean scientist I want a tool to help me get started developing machine learning solutions in my research.

Team Roles

Daniel: Product Owner

Veshant: Developer/Scrum Master

Anthony: Developer

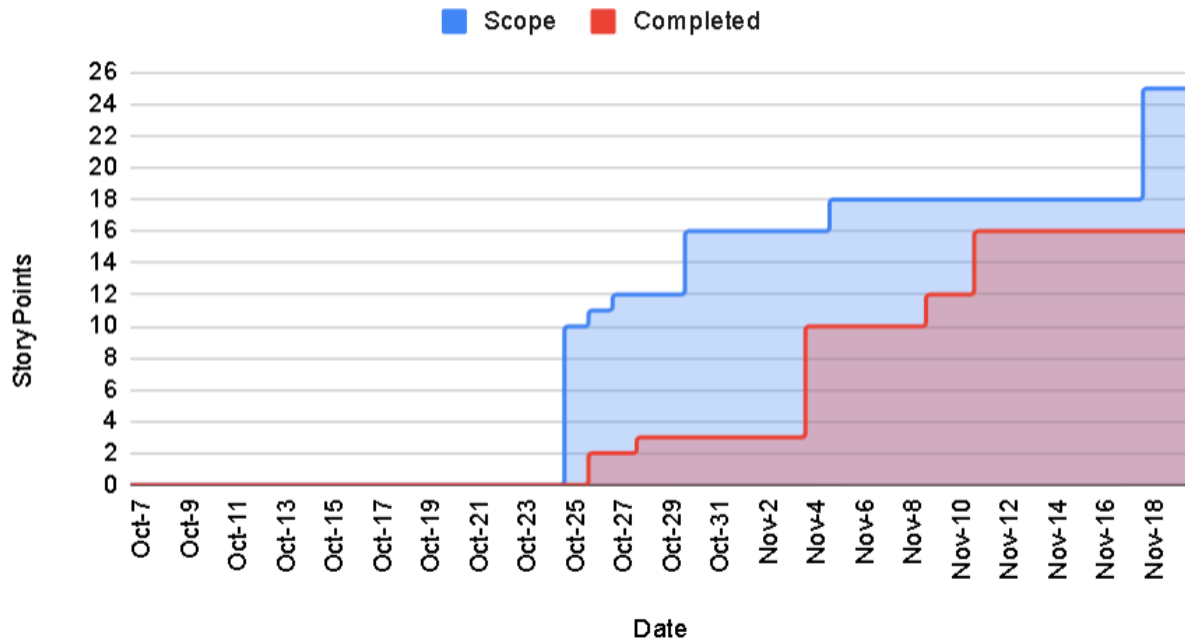

Initial Task Assignment

Daniel -- homepage, UI tweaks

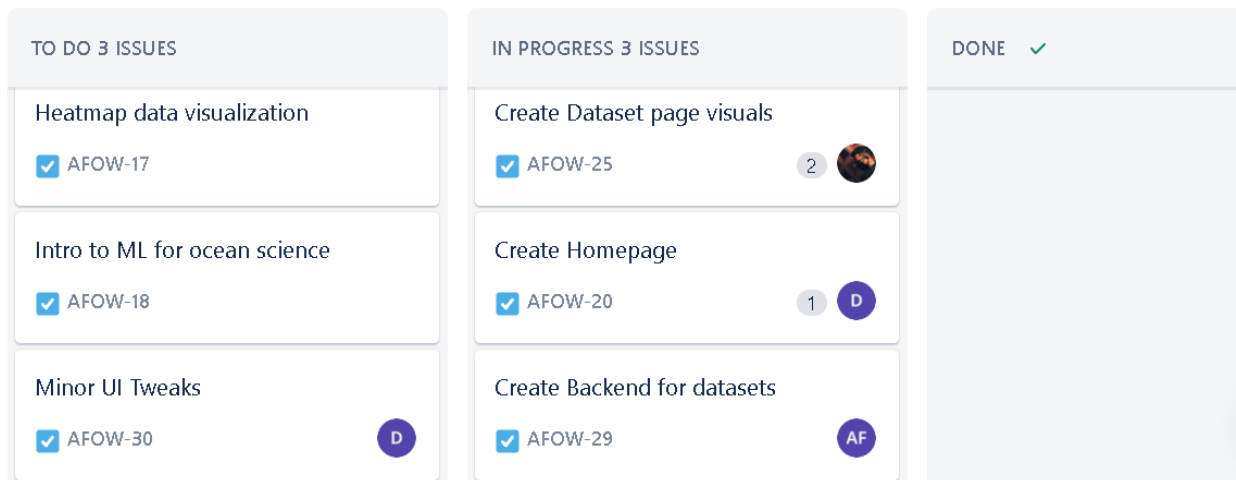

Veshant -- Dataset visuals

Anthony -- Dataset download

Initial Burnup Chart

Initial Scrum Board

Scrum Times

MWF 9:00pm (plus client meeting thursday 6pm)
