

Sprint 2 Plan

Team: AI for Oceans

Release: 1.0

Revision: 29 October 2021

High Level Goal

- Develop the basic website framework and begin work on the pages our client wants

User stories

- [2] As an ocean scientist, I want a website to describe my lab's work
- [2] As a researcher, I want to credit my team on my lab's website so that credit is given where it is deserved
- [5] As a researcher, I want my website to describe my lab goals, research, and unique voice so that our users have a clear understanding of what we do
- [1] As a researcher, I want a modern, user-friendly website for my lab so our work can be presented well

Team Roles

Daniel: Product Owner/Developer

Veshant: Developer

Anthony: Scrum Master

Initial Task Assignment

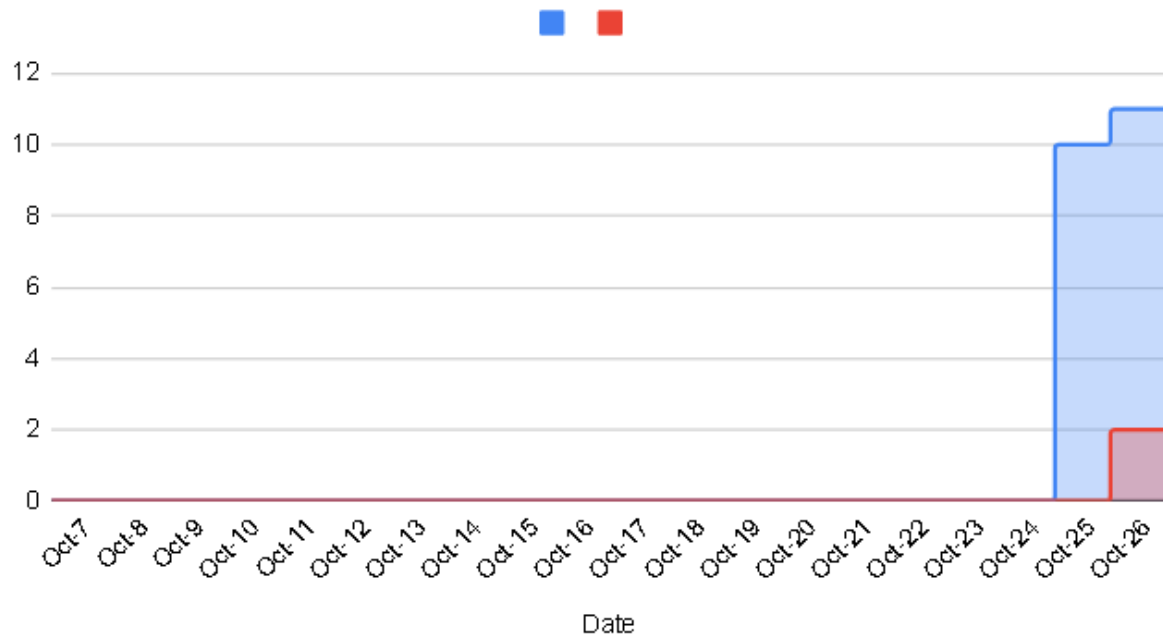

Veshant - Set up website through google cloud run, Layout Component
